## DETAILED ACTION

### *Double Patenting*

1. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 1 and 38 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 31 and 37 of prior U.S. Patent No. 7,206,461. This is a double patenting rejection.

Since claims 2-37 and 39-86 are directly or indirectly depend on the rejected claims 1 and 38, they are also rejected.

***Reasons for Allowance***

2. Claims 87-144 are allowed.
3. The following is an examiner's statement of reasons for allowance. The closest prior art of record failed to teach or suggest, modifying statistical dust map based on further images including mathematically correlating determined and associated dust artifact regions of said further acquired images with dust artifact regions in dust map including combining data associated with dust artifact regions within images acquired with different values of one or more extracted parameters; and correcting digital data corresponding to the correlated dust artifact regions within acquired images based on the modified statistical dust map. Therefore, in combination with all the other limitations claims 87-144 are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Other Prior Art Cited***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
